

Hybrid Backup

Backup and Disaster Recovery (BDR)

PROTECTING YOUR BUSINESS CRITICAL DATA

Are you prepared for the unexpected?

How would your business cope with unforeseen disaster—flood, fire, worse even? What if you lost or accidentally deleted important documents and files? Have you thought about how this would affect your business? We have.

Key Benefits:

- Simple, predictable, pay-per-device pricing
- Support across Windows & Mac
- Hybrid Cloud Backup with on-site and secure off-site storage
- Safeguard Business Information with Military grade encryption

Backup & Recovery Made Simple

When the inevitable happens, rest assured that you can quickly get back to a stable state. Whether it comes from a technology failure, a natural disaster or just user error, our Hybrid Backup & Recovery restores your business quickly

Secure data from end to end

Our data centers' certifications meet all requirements for HIPAA compliance and other legal and regulatory standards. This best-in-class solution has achieved ISO 27001 certification. With up to 448-bit Blowfish military grade encryption.
